

# YONG CAO

🏠 University of Tübingen, Germany 📞 +49 152-5244-2031

✉️ yongcao2018@gmail.com 🔗 yongcaoplus.github.io 📅 Update 28th August 2025

## Research Area and Interests

NLP, LLMs, AI for Science, Cultural Adaptation, Multilinguality, Dialogue System, Semantic Representation

## Education

### University of Tübingen

Postdoctoral Researcher, Supervisor: Andreas Geiger.

Sep 2024 – Now

Tübingen, Germany

### University of Copenhagen

Visiting Ph.D. student, Supervisor: Daniel Hershcovich.

Nov 2022 – Apr 2024

Copenhagen, Denmark

### Huazhong University of Science and Technology

Ph.D. student of Computer Science, Supervisor: Min Chen.

Sep 2018 – Jun 2024

Wuhan, China

### Chinese University of Hong Kong, Shenzhen

Visiting Ph.D student, Supervisor: Kai Hwang.

Jul 2020 – Nov 2020

Shenzhen, China

### Sichuan University

Bachelor of Telecommunication Engineering, Rank: 1/60 (1%).

Sep 2014 – Jun 2018

Sichuan, China

## Experience

### Alibaba-DAMO

Intern of NLP Algorithm Researcher

Jun 2022 – Oct 2022

Hangzhou, China

### Xiaomi

Intern of NLP Algorithm Researcher

Nov 2021 – Jun 2022

Wuhan, China

### Deepwisdom

Intern of NLP Algorithm Engineering

Jan 2021 – Jun 2021

Shenzhen, China

## Academic Activities

---

Area Chair: ACL 2025, EMNLP 2025, ACL ARR.

Co-Organizer: Cross-Cultural Considerations in NLP workshop @ ACL 2024, @ NAACL 2025.

Program Committee: AAAI 2022, 2023, 2024, EACL 2023, ARR 2024, CoLM 2024, NeurIPS 2025.

Media: “Assessing Cross-Cultural Alignment between ChatGPT and Human Societies: An Empirical Study” was picked up by Politiken, Børsen, Ekstra Bladet, P1 Morgen, TV 2 (Denmark) and Science et Avenir (France).

## Talk

---

2025.06, “Cultural Reliability of LLMs: Can AI Truly Reflect Global Perspectives?”, WDMD Workshop @ DSN, Naples, Italy.  
2024.09, “Cultural Considerations in NLP”, Xiaomi, online.  
2024.03, “Cultural Considerations in Large Language Models”, Max Planck Institute for Human Development, Berlin Germany.  
2024.02, “Cultural Considerations in Dialogue Systems”, University of Marburg, Germany.  
2023.10, “Cultural Adaptation of Large Language Models”, University of Copenhagen, Denmark.

## Teaching

---

2025.10 (Upcoming) Seminar: LLM Research Assistants, University of Tübingen.  
2025.10 (Upcoming) Bachelor Team Project, University of Tübingen.  
2025.07 AI for Science, tutorial, IT:U Summer School, Linz, Austria.  
2019.01 Big Data and Internet of Things, Co-lecturer with Prof. Min Chen, Huazhong University of Science and Technology.

## Projects

---

### Cultural Adaption in LLMs | *Copenhagen University* Nov 2022 - Apr 2024

- Consider the cultural difference in large language models (LLMs), and study the cultural alignment between LLMs and human societies based on human society surveys.
- Construct cultural adaption benchmark datasets, and propose solutions to the cultural adaptation on specific domains (e.g. recipe) and general domains (e.g. dialogue).

### Modeling of Abnormal Behavior of Large-Scale Crowd | *Collaboration with KAUST* Dec 2019 - Dec 2022

- Collect large-scale crowd abnormal behavior benchmark dataset on hajj scenario.
- Design abnormal behavior classification algorithm based on the optical flow algorithm and GAN model.

### Product of Sequence Tagging Based on AutoML | *Deepwisdom* Mar 2021 - May 2021

- Understand and be familiar with the research status of AutoML and Sequence Tagging algorithm.
- Develop sequence tagging product based on AutoML, and automatically construct the task pipeline in four stages: Data EDA, offline training, testing and online prediction. The algorithm is implemented based on PyTorch and Keras framework and is deployed through Docker.
- Expand the basic operators of the model to 30+, and evaluate the product performance based on 10+ benchmark.
- Seven basic NLP SaaS services are developed based on this product.

### Resume Parsing System for Multi-Source Unstructured Data | *Deepwisdom* May 2021 - Jun 2021

- Build PDF parsing and word parsing operator based on the company’s resume data, extract information based on entity extraction algorithm and rule matching, and establish a resume parsing prototype system.
- Optimize specific rules for specific field extraction (eg. educational background and work experience), and merge the algorithm into the company’s platform.

### Early Warning System and Intervention Strategy for Depression | *National key R&D plan* Nov 2018 - Jun 2021

- Develop collection and storage scheme of multi-modal dataset from real depression patients and normal volunteers.
- The depression diagnosis model was established based on EEG signal, near-infrared signal, video and audio data, and the depression diagnosis result was realized based on prediction fusion.
- Develop intelligent follow-up system, and construct the development of psychological counseling and intervention robot.

## Honors and Awards

---

- |                                                                          |                                                                               |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------|
| • 2025 DDSA Visiting Grant, Denmark                                      | • 2019 Outstanding Student of HUST.                                           |
| • 2023 DAAD AInet Fellow on Human-centered AI, Germany.                  | • 2018 Outstanding Graduates of SCU.                                          |
| • 2023 Outstanding PhD Scholarship of HUST.                              | • 2017,2016 National Scholarship.                                             |
| • 2021 International Youth Talent Fund by Zhejiang Lab, Hangzhou, China. | • 2017 Outstanding student cadre of SCU.                                      |
| • 2020 Zhixing Scholarship of HUST.                                      | • 2016 Excellent Paper Award in the National Mathematical Modeling Challenge. |
|                                                                          | • 2015 Outstanding Students of SCU.                                           |
